DETAILED ACTION

This action is responsive to amendment filed November 3, 2005.

Allowable Subject Matter

Claims 1-34 are allowed.

The following is a statement of reasons for the indication of allowable subject matter:

The prior art of record fail to teach or suggests the biometric device is activated in response to or in conjunction with the initiation of the entry of a code responsive to the code symbol displayed. The closest prior art of record (Narayanaswami, Gaides US Patent 6905219, Ritter US Patent 6657538) teaches the general use of a keypad/display and a biometric system for verifying the identity of a person but is silent on teaching the limitation as claimed.

Drawings

The drawings are objected to because of the following informalities: The elements 30, 44, 20, 46, and 34 in figures 1-5 should be labeled in accordance with 35 CFR 1.83(a). The circular elements in figures 3 and 4 are not labeled.
